

# PRODUCT DATA SHEET

Product ID           RGR1  
Description:         Rescue Tripod

Accredited to:       EN 795:1996  
Material:            Aluminium cast and extruded legs  
Weight:              17.5kg  
Fittings:             EN 795 attachment points  
Features:            Portable and universally adjustable  
Min - Max Height:   1.7 - 2.7m  
Packed length:       1.4m  
Footprint span:      1.0 - 1.8m  
SWL:                 200kg

The RGR1 Rescue Tripod is portable, lightweight and is easy to erect on site.

- It has adjustable lower and middle legs at 80mm intervals to adapt and adjust to the most demanding surfaces and varying ground conditions.
- There are two additional anchorage points (SWL 200kg) on the underside of the head for additional primary/secondary systems.
- This unit has many applications such as confined access, entry, rescue, retrieval, manhole, silos & trenches, etc.
- The RGR1 is extremely versatile and is recommended for use with the side attachment of the RGR7 rescue winch and the RGR4 fall arrest and rescue recovery winch.
