Description: Webbing Fall Arrest Block - 2.5m

Accredited to: EN 360: 1992
Web material: 47mm polyester
Casing material: Steel
Connectors: RGK1
Weight: 1.4kg
Max. user weight: 136kg
Max. force: <6kN
Features: Built-in shock pack

The RGA1 is a retractable mini web block ideal for personal issue to operatives working at height. The unit is designed to be connected, and worn directly on a fall arrest harness.

The RGA1 has an almost instant lock off in the event of a fall, and recoils into the drum when slack is introduced into the lanyard. The reduced trip hazard and compact design make this unit ideal for tight work and tasks where a shorter arc of mobility is required. The RGA1 can also be fitted to most horizontal lifelines, but always check with the manufacturer prior to fitting.
