

# PRODUCT DATA SHEET

Product ID            RGA3.3 DEF  
Description:         Defender Fall Arrest Block - 3.3m

Accredited to:       EN 360: 2002  
Line material:        5mm galvanised wire cable  
Case material:        Heavy duty Nylon 66  
Connectors:          Aluminium swivel hook  
Weight:                2.2kg  
Max. user weight:   140kg  
Max. force:           <6kN  
Features:              Fall indicating double action connector  
                            Lightweight  
                            Top swivel for additional connection

Similar to the RGA3.3 WEB, this block features a galvanised wire cable, which makes the operation smooth and unproblematic. The fall indicator is comprised in the RGK49 connector that has been coherently designed for most working at height applications.
