*Because every life has a **purpose...***

Gravity® Suspension Harness

Technical Datasheet

The newest Full Body Harness, the **MSA Gravity® Suspension Harness**, is designed to offer the best comfort, safety and quality to users who work at heights and need to choose a harness for suspension.

Features include:

- Ventral attachment point positioned at the waist. Fall arrest rated dorsal and front D-Rings;
- Waist pad manufactured from fully breathable material and designed with multi-layered padding which dissipates pressure from the webbing to reduce fatigue when working for long periods of time;
- Shoulder padding to protect the neck from chafing;
- Aluminium or steel D-Rings options;
- Side D-Rings that fold forward when needed and away when not needed;
- Ergonomic design allows for easy adjusting on buckles;
- Aluminum bayonet buckles on the leg straps;
- Gravity Suspension Light harness comes standard with steel hardware;
- Triple locking carabiner for security and peace of mind;
- A total of 3 rigid tool loops for easy attachment are offered on the waist belt and 1 tool loop on each leg pad;
- Adjustable fully padded leg loops with quick release buckles;
- RFID enabled for easy tracking;
- Available in 3 sizes;
- Meets standards: EN 361, EN 358, EN 813.
