# XTIRPA DAVIT ARM SYSTEM

## BARREL DAVIT ARM SYSTEM

This free-standing, portable system is ideal for use on small to medium walls & structures, where permanent fixing systems aren't available or built into the area of works. It can be supplied with two types of brackets, either in 57 mm or 79mm. In our sector, popular applications are trench boxes or shoring. It offers a solution for the entry, rescue and positioning of personnel.
