THE FUTURE OF AREA MONITORING.

WE KNOW WHAT'S AT STAKE.

## The Simple Usability of a Smart Home Product. The Rugged, Reliable Performance You Expect from MSA.

You shouldn't need IT skills and special equipment to set up your area monitoring network—it should just work. ALTAIR io360 Gas Detectors are preconfigured and ready-to-go out of the box, requiring less time for training and setup.

Guided setup, installation tips, and real-time feedback replace complex instructions, scrolling through screens, and overwhelming menu selections. All you need are a few quick swipes on the Safety io Grid mobile app to know you got it right the first time.

## Flexible Monitoring and Effortless Connectivity Make Your Workers and Job Sites Safer

Gas detection and local alarms for high-risk areas.  
Just turn on your ALTAIR io360 Gas Detectors and deploy where needed.

The MSA HUB allows up to 16 ALTAIR io360 Gas Detectors to form a network you manage locally via the Safety io Grid mobile app.

Connecting your gas detection network to Safety io Grid gives you the power to remotely manage and monitor your fleet of detectors, capture data, and take action to create safer sites.
